*** Notes of Significance *** Fires highlighted in yellow have submitted a final ICS-209																	

## Evening Brief

Date: Friday August 11, 2017

---

### Weather Summary

**\*\*\*Mixed wet/dry thunderstorms over the western/central Idaho mountains on Saturday\*\*\***

Moisture will remain in place across the northern and eastern portion of the area through early next week, leading to scattered showers and thunderstorms, most of which will be wet. Some areas of southern Idaho, Wyoming and Utah will see wetting rains on top of fuels that have moistened quite a bit. Storms in the Central ID Mountains will be a mix of wet/dry through Sunday with gusty outflow winds.

However, at the same time drier air will continue to move into the area from the southwest, across much of central and southern Nevada for decreasing thunderstorm activity.

A cold front associated with a low pressure system across the Pacific NW will move into western ID and northwest NV on Monday for slightly cooler temperatures, an increase in wind speed and some isolated showers across the north.

---

### Preparedness Levels

Great Basin	3
National	5

---

### Great Basin Fire Activity (from Irwin): Light Activity

**New Fires and Acres: 15 fires for 74.15 acres; 0 acres large fire growth; 0 new large fires**

---

### Resources:

- Crews: 12 T1 IHCs in GB: 11 committed, 1 Available.
- GBCC has committed an estimated 77+ Type 3, 4, 6 engines.
- 2-T1 and 6-T2 helicopters are available in GACC.

---

### Great Basin Fire Potential Summary

Very high fire danger indices for the time of year are being observed over the mountains of western and central Idaho. Values are much lower across the south and east.

The western portion of the Great Basin will get a break from the monsoon this weekend and allow fine fuels to dry, especially over western NV.

We have issued a Great Basin **Fuels and Fire Behavior Advisory for Nevada, Idaho and Utah**, available at the following link:

[https://www.predictiveservices.nifc.gov/fuels\\_fire-danger/GB\\_Fuels\\_and\\_Fire\\_Behavior\\_Advisory.pdf](https://www.predictiveservices.nifc.gov/fuels_fire-danger/GB_Fuels_and_Fire_Behavior_Advisory.pdf)
